A day comes in our lives when we realize what we really wish to do with it. Dreams, ideas, visions and perspective, everything starts making sense. The journey started with an ambitious decision to give the people of Gujarat something that they can cherish and learn from at the same time. Gujarat which is very well known as the heaven of cultural diversities is far off from the knowledge and know-how of camping and ecotourism. It is with great determination of Bandhan Shah, we came with the concept of PGH Resort. A camp by the nature people and for the nature people. The idea was always to start something that would change the complete outlook of people towards people in Gujarat and the Gujarat Tourism.
