INTRODUCTION

1.1 PROJECT DETAILS

➔ Our Website PGH Resort Booking is based on Orsang Camp Resort Booking.

➔ After seeing the website of ORSANG CAMP , We also thought of creating a similar website. We liked a lot about them.

➔ ORSANG CAMP has a user-friendly interface that enables users to easily view some packages of resort and book it.

➔ But in our website we can only book package for holidays at our resort situated at Surendranagar in Gujarat state.

1.2 PURPOSE

➔ Just like ORSANG CAMP, our website is Provides package booking, arrival-departure, gallery photos, resort reviews and all activities can be viewed.

➔ The user can use any if there is a query, user can also contact on mail.

➔ Anyone who wants to enter our website as a visitors can view gallery, activity, package and registration page.

1.3 SCOPE

our website is Provides package booking, arrival- departure, gallery photos, resort reviews and all activities can be viewed. The user can use any if there is a query, user can also contact on mail.

1.4 OBJECTIVES

The main objective of PGH Resort Booking website is to manage details of resort, packages, user, show activity. It manage all the information about packages booking. The website is totally built in administrative end and thus the only admin is guaranteed the access.
